

HydroImaging Workshop Program

ICIP 2026 Satellite Workshop • September 17, 2026 • 09:00–16:30 (EEST, UTC+3) • C8, Tampere University

Welcome to the HydroImaging workshop, where imaging AI, multimodal Earth observation, and hydrology meet. This booklet provides a clear session-level and paper-level schedule so attendees can navigate each block without ambiguity.

Program Overview

Time	Activity	Lead / Notes
09:00 - 09:15	Workshop Introduction	Mourad Oussalah
09:15 - 10:15	Keynote: From Fields to Fires to Fens	Kevin Tansey
10:15 - 10:45	Coffee Break	C8 foyer

Oral Session: Paper Session 1

Session window: 10:45 - 12:15

Paper Time	Paper ID	Title
10:45 - 11:00	Paper 3956	Monitoring Algae Blooms in Lough Neagh, United Kingdom using SENTINEL-1 statistical model
11:00 - 11:15	Paper 4140	A Large Scale Open-Source Image and Video Dataset for Robust Wildfire Detection and Classifi
11:15 - 11:30	Paper 4386	Multimodal Change Detection for Remote Sensing
11:30 - 11:45	Paper 4152	Constructing an environmentally complex trail camera capture stream and river water segmentat
11:45 - 12:00	Paper 4233	MACHINE-ORIENTED RGB-D REPRESENTATION FOR QUADRUPED LIVESTOCK BODY FE
12:00 - 12:15	Paper 4122	DEEP LEARNING-BASED SEA ICE THICKNESS ESTIMATION FROM MULTIMODAL SATELL

12:30 - 14:00 • Lunch Break (C8 foyer)

Oral Session: Paper Session 2

Session window: 14:00 - 16:00

Paper Time	Paper ID	Title
14:00 - 14:15	Paper 4258	HYDRO-DATASET: A MULTI-MODAL OPEN-SOURCE PIPELINE FOR NORDIC HYDROLOGI
14:15 - 14:30	Paper 4047	AI Driven Identification of Stormwater Quality Regimes Using Event Based Monitoring and High
14:30 - 14:45	Paper 4053	Authenticity Verification of Climate-Change Disaster Damage Claims Using Satellite Images
14:45 - 15:00	Paper 4349	Multisensor Data Fusion for Sea Ice Concentration. A comparative Study of U-Net Depths
15:00 - 15:15	Paper 4362	Spatiotemporal Raster Analysis of CIMP6 Freeze-Thaw Dynamics in Cold Climate Region
15:15 - 15:30	Paper 4355	Weighted Prompts Ensemble for Fine-Grained Zero-Short Surface-Water Feature Classification
15:30 - 15:45	Paper 4358	Beyond Weak Labels: Prompt-Guided Local Refinement for Weakly Supervised Water Segmenta
15:45 - 16:00	Paper 4324	Explainable Peatland Water Table Modeling Using Large Language Models

16:00 - 16:30 • Panel Discussion and Closure

Thank you for participating in HydroImaging. We wish you an engaging and productive workshop day.
